

## **Have you heard about the Children's Fund?**

Through employee donations, the Children's Fund feeds hungry children, provides glasses or medication, purchases shoes that fit or a warm coat. It makes it possible for students to participate in after-school science programs, music lessons, and recreation programs.

The Children's Fund, part of the nonprofit LMSV Educational Foundation, is a simple program that works. It features rapid response with almost no bureaucracy and is easily accessible through school counselors.

The Foundation's Minigrant program funds special projects for teachers.
